

CUMULATIVE SUBJECT AND AUTHOR INDEX

Beginning with Volume VI, No. 4, *Masters Abstracts* added a Cumulative Subject and Author Index for Issues 1-4 of each volume. Following the five-year Cumulative Subject and Author Index for Volumes I-V; we are planning on a second one for Volumes VI-X. These will be prepared every five years.

The index is arranged in two main parts, subject and author. The subject index is arranged alphabetically by author under each subject, and it includes the title along with volume, issue, and page number. Thus: X/2/30 is to be read as Volume X, issue number 2, page number 30. The user is thus referred to the actual issue which contains the published abstract and all pertinent information including the order number.
